## SKILLS

---

**Results-oriented Data Analyst** with experience in analyzing, cleaning, and visualizing data to support business decisions. Proficient in Excel, SQL, Python, and dash boarding tools, with a strong application development background that enables efficient data pipelines, automation, and scalable, data-driven solutions.

## SKILLS

---

<b>Data Analytics</b>	Data Collection, Data Cleaning, Exploratory Data Analysis (E, Data Interpretation, KPI Tracking, Business Reporting
<b>Data Visualization</b>	Power BI, Excel Dashboards, Charts & Reports
<b>Programming &amp; Querying</b>	Python (Pandas, NumPy – Data Processing), SQL
<b>Tools</b>	Excel (Advanced), Git & Version Control, Postman
<b>Database</b>	MongoDB, SQL
<b>Technical Background</b>	REST APIs, Flask (Python), Data-driven Workflow Optimization
<b>Software Development Background</b>	Flutter, Bloc, GetX, Material Design

## EXPERIENCE

---

<b>Data Analyst</b>	Sep 2025 – Present
K. Girdharlal International Ltd.	Surat, Gujarat.
• Analyze and transform large operational datasets to deliver actionable insights for management decisions.	
• Design and maintain dashboards and reports to track KPIs and business performance.	
• Identify trends and anomalies to improve efficiency and optimize workflows, collaborating closely with business teams.	
<b>Application Developer (Flutter) – Part-time</b>	Aug 2025 – Nov 2025
QuikyGo	Bengaluru, Karnataka (Remote)
• Developed Flutter-based mobile application features for a service-booking startup connecting users with blue- and pink-collar workers.	
• Collaborated with the product and development team to deliver scalable, consumer-focused solutions within tight timelines, following clean and maintainable coding practices.	
• Implemented booking, listing, and user interaction flows to enhance usability and app performance.	
<b>Flutter Developer</b>	April 2025 – Present
Nextwave Infotech	Surat, Gujarat.
• Developing modern, scalable mobile applications using Flutter.	
• Collaborating with cross-functional teams to define, design, and ship new features.	
• Focusing on optimizing application performance and maintaining code quality.	
<b>Flutter Developer &amp; Python API Developer</b>	Jul 2023 – April 2025
JN Softech	Surat, Gujarat.
• Developing and maintaining mobile applications using Flutter.	
• Developed backend APIs using Python Flask to build and integrate REST APIs.	
• Collaborated with designers and backend teams to enhance functionality and user experience.	
• Implementing new features and fixing bugs based on user feedback.	

## Campus Ambassador

Jun 2023 – Nov 2023

Zuno by foundit

Remote.

- Promoted company initiatives and events on campus.
- Facilitated workshops and seminars to educate peers about the company's offerings.
- Collected and relayed feedback from students to improve company services.

## EDUCATION

### B.Tech in Information Technology

Aug 2021 – Jun 2025

Bhagwan Arihant Institute of Technology

CGPA: 8.25/10

### Higher Secondary Education (GSEB)

2020 – 2021

Tapovan Group of School

Percentage: 83%

## PROJECTS

---

### 1 image\_to\_clipboard (Plugin)

Developed a plugin named image\_to\_clipboard for copying images to the clipboard on Android using Kotlin. This plugin uses FileProvider to share image files securely, avoiding FileUriExposedException.

**Technology Stack:** Flutter, Kotlin

[\(Documentation\)](#) [\(Code\)](#)

### 2 Meeting Management System (Python Flask + Flutter Project)

A comprehensive meeting management system designed to streamline user management, membership handling, meeting organization, sponsor coordination, and attendance tracking for corporate and committee-based events.

**Key Features:** User management, Membership management, Committee and All-user meetings, Sponsor management, QR-based and manual attendance systems.

**Technology Stack:** Frontend: Flutter. Backend: Python (Flask API). Database: MongoDB.

### 3 DhanSafar - Financial Management App (Python Flask + Flutter Project)

A financial management app aimed at simplifying budgeting, real-time financial calculations, and detailed financial overviews for contractors and individuals.

**Key Features:** Budget tracking and real-time financial calculations. Feet and inches calculator for contractors. Personal finance tracker for managing non-project-related expenses.

**Language Support:** Hindi, Gujarati and English.

**Technology Stack:** **Frontend:** Flutter (Bloc for state management). **Backend:** Python Flask API. [\(APP\)](#)

### 4 flexi\_bottom\_nav (Package)

Developed a Flutter package called flexi\_bottom\_nav that simplifies the implementation of customizable bottom navigation bars. This package allows developers to set labels, icons, number of screens, and select which screens to display with ease.

**Technology Stack:** Flutter

[\(Documentation\)](#) [\(Code\)](#)

## Licenses and Certifications

---

- **Amazon Summit India 2023** - Amazon Web Services (AWS)
- **JavaScript Algorithms and Data Structures** - FreeCodeCamp
- **Flutter Zero to Hero** - Google Developers Group

## Publication
